

WORDS THAT SERVE

Christian Social Media Caption Pack

Captions

Four caption formulas with ready-to-adapt examples, for the posts you make most often: devotional thoughts, encouragement, reels, and quote graphics. Swap in your own words where you see brackets.

Devotional Posts

Formula: Verse + one honest sentence about what it means to you + a question for your audience.

Examples

☐ "[Verse]. I needed this reminder today because [honest sentence]. Where do you need to hear this too?"

☐ "Reading [Book chapter:verse] this morning and it stopped me in my tracks: [one line on why]."

Encouragement Posts

Formula: Name the struggle + a truth that counters it + an invitation to respond.

Examples

☐ "If you're feeling [struggle] today -- you are not forgotten, and you are not alone. [Truth/verse]."

☐ "Gentle reminder: you don't have to have it all figured out today. [Verse]. Tell me one small win from this week."

Reels / Video Captions

Formula: A hook line + the point in one sentence + a call to action.

Examples

☐ "The verse that got me through [season] · [one-sentence takeaway]. Save this for the hard days."

☐ "3 things I wish I knew before [topic]... #1 [point]. Full story in the caption / comments."

Quote Graphics

Formula: Short quote or verse, standalone, with minimal caption -- let the image carry the weight.

Examples

☐ "[Verse reference] ."

☐ "Needed this today. Tag someone who does too."
